fear of flying, 316

Catecholamine
in the eel, 931
Cavinton
antimotion drug, 281
Centrifugation
primate responses, 226
Cerebral Dysfunction
during +Gz stress, 24
Cerebral Spinal Fluid Pressure
at simulated altitude, 370
Cholesterol
high-density lipoprotein levels, 941
Circadian Rhythm
alterations of, 1085
effects of alterations on human performance, 1085
effects of alterations on human physiology, 1085
effects on mental efficiency, 493
effects on personality, 493
relationship with loss of sleep and time on tasks, 102
Circulation
response to varying environmental temperatures, 546
Clinical Aerospace Medicine
case reports, 946
Clinical Case Reports
#1, 1055
#2, 1151
Cold Exposure
coagulation and fibrinolytic responses, 291
Cold Water Immersion
and endurance fitness, 715
temperature in man during and after, 19
Cold
effects on blood volume, 296
Commercial Diving
fatalities, 721
Controlled Alternating Parachute Exit System
and injury prevention, 65
Coronary Artery Disease
predicting the risk, 941
Coronary Surgery
survival and return to duty, 321
Corrective Lenses
sphere and cylinder, 751
Cosmos Biosatellites
experiments, 685
Counterpressurization
effects on circulatory prostaglandins, 350
Cyclic Heat Stress
physiological and perceptual responses to, 935

D

Dark Adaptation
effects of acceleration forces, 186
effects of extended hypoxia, 191
Dead Sea Area
effect of altitude, 1010
Decompression Sickness
and therapy, 396
cause of, 1097
factitious complaints, 396
spinal cord, 584
spinal cord model, 679
weight-height indices and percent body fat, 391
Decompression
effect on the frog's eye, 910
safety, 1015
tolerance of lung to, 1015
Dehydration
and blood volume responses, 296
Dextran 70
hemodynamic effects on hemorrhagic shock, 1118
Dextrose (10%)
hemodynamic effects on hemorrhagic shock, 1118
Diet
for protection against oxidation damage, 617
vitamin E or selenium against oxidation damage, 617
Digoxin
effect on serum and urinary changes and high altitude, 287
Dimenhydrinate
protection against motion sickness, 1051
Divers
occupational, 391
Diving Accidents
use of injury matrix in investigations, 2043
Diving
commercial fatalities, 721
hematologic and hemostatic changes during, 592
injuries and treatment, 2043
Doctor Stuff, 82, 165, 252, 442, 569, 661, 763, 977, 1071, 1170

transthoracic impedance, 893
Sickle Cell Trait Series
biographical highlights, 178
I:policies, observations, and studies, 180
II:aeseptic splenic necrosis, 271
III:hyposthenuria, hematuria, sudden death, 358
IV:considerations and recommendations, 487
Sickle Cell Trait
in relation to training and assignment of duties, 180, 271, 358, 487
Sinus System
and disease, 429
Skin Temperature
patterns in man during and after cold water immersion, 19
Sleep Loss
and exercise, 1031
Sleep
deprivation, 216, 1031
in the Arctic Circle, 1026
long-range air capability, 269
loss, 102
of shiftworkers in the Arctic Circle, 1026
South Atlantic Campaign
and long-range air capability, 269
Space Adaptation Syndrome
cholinomimetic model, 692
Space Motion Sickness
treatment, 2048
Space Station
atmospheres, 1097
mankind's permanent presence in space, 948
Space Suit
atmospheres, 1097
Spectacle Frames
and pilots' vision, 957
Spinal Cord Dysbarism
model, 679
Spinal Cord
decompression sickness, 584
Spinal Injury
in helicopter accidents, 32
Spinal Reflex Response
in man, 8
Spine
tolerance to high acceleration, 903
Spondylolisthesis
in pilots, 556
Stress
and immune system of rats, 1004
and liver metabolism, 538
and malocclusion, 141
arterial failure under, 630
cervical spine and high acceleration, 903
cyclic heat variations, 935
heat, 507
hyperventilation in flight, 411
vibration and back pain, 556
Stroke Volume Index
sex differences, 893

Sudden Death
and sickle cell trait, 358
Surface Temperature
and cold-water immersion, 19
Surgical Chamber
expandable for use in weightlessness, 403
Survival
time predictions for humans in ice-water, 206

T

Taste
conditioned taste aversion as effect of off-vertical rotation, 632
Temperature
performance of survival suits in ice-water, 212
Thermal Responses
to varying environmental temperatures, 546
Thermography
to determine temperatures and cold-water immersion, 19
Thermoregulation
in rats at 3G, 542
Training
and sickle cell trait, 180, 271, 358, 487
flying ability and motivation, 558
physical and + Gz tolerance, 981
relaxation/desensitization in anxiety in flying, 196
water survival, 41
Transmeridian Flight
body temperature and mental efficiency after, 493
Transthoracic Impedance
sex differences, 893
Treatment
spinal cord dysbarism, 679

U

U.S. Navy Divers
weight-height indices and percent body fat, 391
United States Air Force Medical Service
history of, 642
Units and Symbols
standardization, 93
Urinary Cation
effect of digoxin and high altitude, 287

V

Vestibulo-Ocular Reflex
during fixation of mobile target, 1
during fixation of stationary target, 1
high frequency, 1
in man, 1
Vibration
and helicopter pilot's back pain, 117
combined-axis, 387
high frequency and vision, 1046
sensorimotor system performance altered by, 8
spinal reflex alterations as a function of, 8
stress during flight of helicopter pilots, 556
whole-body, 13, 387
Vision Physiology
a review, 145
Vision
acceleration forces' effects on night vision, 186
and USAF rated population, 751
and aircraft landing, 1020
and location of accoustic targets, 735
dark adaptation, 145
effects of spectacle frames, 957
effects on pilot performance, 914
eye movements induced by high-frequency head rotation, 1046
night vision, 145
stereoscopic, 914
target instability, 1
visual acuity, 145
visual slant misperception, 1020
visually controlled tracking, 1, 13
Visual Acuity
effects of acceleration forces, 186
Visual Pathology
and aviation accidents, 966
Vitamin D3 Metabolites
phosphorus metabolism in hypokentic rats, 534

W

Water Safety
for humans in ice-water, 206
performance of survival suits in ice-water, 212
Water Survival
training and incidence of survival, 41
Weibull Distribution
and motion sickness, 521
Weight
study, 725
Weightlessness
and head-down bedrest, 887
antiorthostatic responses in mice, 612
cardiovascular response by head-down bedrest, 887
Cosmos experiments, 685
expandable surgical chamber for use in, 403
hypokinetic/hypodynamic responses in mice, 612
Wenckebach Point
and + Gz tolerance, 697
Work
shiftwork research, 102
Workload
helicopter pilots, 746
sleep of shiftworkers in the Arctic Circle, 1026

X

X-Ray Technique
to determine significance of headrest geometry, 122

Y

You're the Flight Surgeon 80, 163, 254, 342, 441, 570, 662, 764, 978, 1069, 1171

Z

Zero Gravity
and hemodynamics, 887
Zero-G Environment
minimizing the hemodynamic effects, 177
